THANAPAT PISAWONG

FULL STACK DEVELOPER

SOFTWARE ENGINEER

ABOUT ME

I'm a passionate system developer who believes in continuous improvement—both personal and professional. With resilience under pressure, a hunger for knowledge, and a strong drive to learn from those ahead of me, I aim to become a force of positive change through technology. I believe in growing together with the team and shaping systems that not only solve problems but also move organizations forward. Thank you for taking the time to learn about me.

EXPERIENCE

June 2025 - August 2025

AdvanceNetworktechnology & services company limited

Programmer

- Designed and developed software applications based on business requirements using the Agile methodology.
- Utilized tools such as Git, Azure DevOps, Fork, Virtual Machines (VM), IIS, and FileZilla to manage development, deployment, and version control processes.
- Currently working on SMS-based marketing solutions, focusing on building and maintaining messaging systems for marketing campaigns.
- Experience in collaborating with outsourced development teams, ensuring seamless communication and project delivery.

May 2024 - June 2025

บจก. เจียเม้งมาร์เก็ตติ้ง (ข้าวหงษ์ทอง)

เลี้ยงเมืองนนทบุรี บางกระสอ อ.เมืองนนทบุรี นนทบุรี 11000

Fullstack Developer

- Designed and implemented a complete back-office solution for employee attendance, geofencing, KPI evaluation, and payroll processing.
- Developed a geofencing-based attendance, KPI, and payroll system. Designed SQL database and handled full deployment via FileZilla. Over 3 years of end-to-end system development experience.

Jan 2023 - Dec 2023

Software & Scale Engineering | 49/61 M.4 shatluang13

Programmer / SoftwareTester

- Developed a C# Windows application for scanning employee and vehicle ID cards.
- Integrated IoT devices to measure truck weight before and after operations.
- Stored data in a database for tracking and reporting purposes.
